Rugby W.I. Host To Melvin Group

The June meeting of the Rugby Women's Institute was held at the home of Mrs. I. McNaughton with a good attendance and a number of neighboring W.I. members from Melvin were welcome visitors.

After a short business session the roll was called by answering with "My Most Embarrassing Moment," and truly some were very much so. Miss Johnston gave a most instructive "first aid" demonstration on the setting of broken limbs, bandaging wounds, and so on. By this time the afternoon was on the wane and the meeting closed with the National Anthem, and lunch followed.

In the angel cake contest first place went to Mrs. A. Cowitz. Members don't forget the change of date for the Calgary trip, which will take place June 12 instead of June 16, when all will meet at the home of Mrs. McNaughton at 8:30 a.m.

Born at the Didsbury hospital to Dr. and Mrs. Leslie Allen on May 31, a son.

Didsbury Flyers Lose to Olds

Ted Miller's Olds Combines ladies' softball team was in Didsbury last Thursday evening and playing before a large crowd proved themselves worthy winners over the Didsbury Flyers by a 15-7 score. The Flyers appeared nervous and allowed the visitors to score seven runs in the first inning. However, as the game progressed the Didsbury girls settled down and played some smart ball, coming up with five runs in the fifth inning through consistent hitting. Phyllis Fox and Gladys Laid made beautiful catches of long fly balls in the field. Olsen pitching to Herbert worked very effectively for the Olds club.

Didsbury — Clara Schneidmiller 11, Joy Folkman 2b, Agnes Tighe 3b, Marjorie Goettgen 3b, Gwen Morgan p, Jean Krebs c, Phyllis Fox 1b, Gladys Laid 2b, Jean Dageforde, Wilma Luft, Anna Dupont, Laura McCulloch.

Olds — Olsen p, Marcum lf, Madson cf, Miller ss, Carter 2b, Herbert c, Johnson 1b, Hill 3b, McLean rf.

The Olds Combines will play a return game at Didsbury on Monday, June 13, at 7 p.m. Come out and support the girls.

SUCH WAS LIFE

We have all heard of the "Pipe of Peace" as a sign of harmony used by the Indians. How about a "Bottle of Peace."

When the 1898 Dominion Election was at stake with a definite two-party ring (Liberals and Conservatives) it was so arranged that both party "stumpers" had the same conveyance to cover the district (a two-seated democrat). The night Didsbury had the meeting in question there were about seven or eight men present besides the four speakers. We met in the one end of the immigrant shed which was partly equipped for a private school room.

As usual speakers were prone to wander into a mud singling field as they each took their turn. On several occasions the chairman had to call to order and stop what seemed to be heading for a more serious way of dealing in personalities.

To me it had all the earmarks of a genuine "put on" as I could not see that a two-seated democrat was roomy enough for sentiment displayed at the meeting. The meeting was then dismissed by singing "God Save the Queen" and our guests were soon seen climbing into the democrat and headed for Olds. When they were out of sight days are long in June—it was still daylight you can imagine the kids we got out of seeing them reach under the seat and haul out a bottle and each take a quota of "peace-making liquid."

How many bottles would it take to cover their ride?
P.S.—Will the Bottle of Peace still function in an election fifty-one years later?

Agricultural Society To Have Fall Fair

The directors of the Didsbury Agricultural Society met in C. E. Reiber's office on Friday afternoon, June 3rd, and fully discussed the annual fair question.

Owing to the fact that suitable buildings are not available at the exhibition grounds, and funds are lacking to build them, it was decided to try and hold a fall fair this year, when garden produce is fully matured, and if arrangements can be made exhibits will be placed in the new arena and curling rink.

Committees were appointed to make further investigation before setting a date for the fall fair, and the matter will be further discussed by the directors at a later date.

TOURNAMENT PLANNED FOR LADY GOLFERS

All lady golfers interested in a Tombstone tournament to be played on the Didsbury golf course on Saturday, June 11, at 1:30 p.m., are requested to make their entries at C. E. Reiber's office by Friday, June 1. If you have not already turned in the score for your handicap round, this must also be turned in by Friday.

Building Permits Issued by Council

Mayor H. Lynch-Staunton presided and Councillors Reiber, Cresswell, Bowman, Gibson, Kimmel and Parsons were present at the regular meeting of the Town Council held Monday night.

Six building permits were issued for a total value of \$31,000, and several applications for building lots were received.

A request from the Institute for the Blind to hold a tag day in Town on October 15 was granted.

Mr. McDonald, representing Tanner and Co. of Calgary, was present and stated that his company was willing to handle the 1½" water and sewer debouché issue for the Town of Didsbury.

A delegation from the Canadian Legion, Sid Wilkins and Bill Payne, asked that the gate to the Butte be opened, and Council decided to keep this gate open in the day time and closed at nights during the summer months.

Another delegation, J.W. Wordie and Bruce Parker, representing the Didsbury Agricultural Society, asked for a larger grant towards a fall fair, but no definite decision was made by Council on this matter.

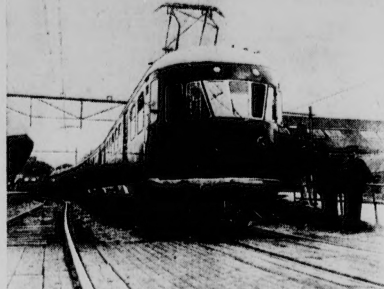

Bowden Ball Club Trims Didsbury 10-1

A regular Rosebud Baseball League game between Bowden and Didsbury was played at Bowden on Sunday, June 5. In this game, played under ideal conditions, the Bowden nine were easy winners by 10-1 score, as they played steady ball all the way. The Didsbury club was decidedly below regular form, both at the plate and in the field, with many costly errors being committed. Harman pitched the full route for Bowden in an all-round performance. Rodway, Anderson and Freeman worked on the mound for Didsbury.

Didsbury—Barrett, Rodway, Weldner, Sandeau, Roberts, Shantz, Hogg, Hughes, Evans, Morris, Gintzer, Goosen, Freeman.

The next two home games are Innisfail at Didsbury on Wednesday, June 8, and Carstairs at Didsbury on Sunday, June 12.

To Speed European Economic Recovery

This gleaming, electric powered train has been added to the war-damaged transportation system of the Netherlands as the result of a loan from the International Bank for Reconstruction and Development, a Specialized Agency of the United Nations. The Bank has been concentrating its loans on long-term projects, which will contribute to over-all economic development.

Raven Picnic to be Held This Year on Sunday, July 31

Members of the Didsbury Fish and Game Association met with representatives of the Olds and Innisfail Associations in W.E. Kemp's office in Olds last week and decided to hold the annual picnic at the Raven Fish Hatchery again this year, and the date decided on was July 31st.

The past three years the Raven picnic has been sponsored by the Didsbury, Olds and Innisfail Associations, but the meeting decided to invite the Red Deer Association to participate this year.

As in former years, the Innisfail association will have charge of the sports program and the advertising. Olds will look after the barbecue and grounds, and Didsbury will have charge of the refreshment booths.

Since the barbecue was such an outstanding success last year this event will again be held, and a committee comprising Sid Hopkings, W.E. Kemp, Slim Goodhoun and Ken McCoy will look after the preparation of the pit on the grounds, and the preparing of the meat.

Since the picnic has been operated as a non-profit entertainment in the past years there has been no funds available to improve the grounds and sports. Therefore it was the decision of the meeting

The locals scored their first run of the game in the third inning and with rain threatening the game was called for a time. In the fourth inning Bowden scored two runs to lead by a 2-1 score when the game was called because of rain. The game will be replayed at a later date and the fans can expect a real ball game.

The weather was ideal and 22 ladies were present. While the little folks enjoyed games outside, the grown ups took part in contests. After a delicious lunch, little Shaaron Campbell and Ernie Schneidmiller wheeled in a decorated wagon loaded with gifts for the guest of honor.

Assisted by her cousin, Mrs. Rudolph Wolff, Pat opened her presents and showed them to the guests. She received many beautiful articles and in a few well-chosen words thanked the donors.

TELEPHONE GIRL

The telephone girl sits in her chair
And listens to voices from every-where.

She knows who is happy and who has the blues;
She knows all the gossip, she knows all the news;
She knows every time we are "out with the boys";
She knows the excuses each fellow employs;

She knows our troubles, she knows our strife;
She knows the man who is mean to his wife.

If the telephone girl should tell all she knows,
It would turn our friends into bitterest foes.

She could sow a wind that would soon be a gale.

Engulf us in trouble and land us in jail;

She could get our churches mixed in a fight.

She could start a story which gaining in force.

Would cause many women to sue for divorce;

She could turn our day into sorrowing night.

In fact she could keep the town in a stew.

If she told one-tenth of the things she knew.

Ge! Doesn't it make your head just whirl?

When you think what you owe to the telephone girl? EX

WEST NOTES

Mr. and Mrs. E. Fisher and family were Sunday guests with Mr. and Mrs. Frank Byrt of Madden.

Mr. and Mrs. J. Boshaw were Calgary visitors Friday last, taking the latter's mother, Mrs. F. Byrt, down for medical treatment.

The weather still remains very dry and although clouds gather all most every evening they disappear by morning without any moisture falling. Although this district is not suffering like some, a good rain would be very welcome.

Mrs. S. Johnston of Carstairs visited her mother, Mrs. K. Korschut, on Sunday.

Mrs. J. Woolway of Red Deer is at present visiting Mrs. J. Hoggood.

The Elkton ball team travelled to Hainstock last Wednesday and came home victorious. They also won on their home diamond on Sunday, defeating Hainstock 8-3.

Among those attending Achievement Day at the Red Deer high school were Mrs. O. Krebs and Mrs. O. Thompson.

Mrs. Vic Snydermillier entertained at a miscellaneous shower on Friday afternoon in honor of Miss Patsy Gibbs whose wedding takes place at her home on June 15.

Congratulations to Mr. Royden Russell and his bride of Sundre.

Mr. and Mrs. H. Hoggood were Olive visitors over the week end.

Mr. and Mrs. O. Thompson were supper guests on Sunday with Mr. and Mrs. A.L. Hogg.

WESTCOTT ITEMS

Congratulations to Mr. and Mrs. Chas. Toppling on the birth of a daughter.

Mrs. Otto Folkman and Mrs. John Jacobson accompanied Mrs. Annie Krebs and Mrs. O. Thompson to Red Deer on Friday where Mrs. Folkman's son, Donald, attends the composite high school. Mrs. Folkman took in the Achievement Day exercises. Donald returned with the ladies and spent the week end with his family at Westcott.

Mr. and Mrs. Harry Levagood and Mrs. Harry Herbert Goetjen attended the funeral in Carstairs on Saturday of Mrs. A. Spillman, an old time resident of the Garfield and Cremona districts.

Mr. and Mrs. Harry Levagood visited on Sunday with Mrs. Levagood's aged father, Mr. Reinhardt, who is being taken care of in a home near Camrose.

Mr. and Mrs. Adolph Baudist and sons of Aldridge spent Sunday visiting with relatives here.

The weather remains hot and dry and we have lots of clouds but no rain. So different than other years when it rained out of a clear sky or so it seems now to us. We need rain here desperately as these hot winds of late are taking their toll on gardens and crops.

JUNIOR BEEF CALF CLUB SALE

(continued from page 1)
(formerly of the University Farm), and Howard Fulcher (Department of Agriculture) divided the calves into three groups. Special, Choice and Quality. Of the 85 calves shown, about 35% graded Special, 50% Choice and 15% Quality.
In making the awards Mr. Johnston said this was the best group of calves he had judged this year and urged the boys and girls to get a picture of what is wanted for top quality beef and try for this next year.

The Grand Champion of the show was a Hereford steer shown by Roy Fischer of Olds, and it weighed 810 pounds. It was sold for T. Eaton Co. for 35 cents a pound, and brought the proud owner \$415.50, besides \$25 in cash from the Alberta Hereford Breeders' Association.

Marvin Peterson of Olds won the Reserve Championship with another Hereford steer, weighing 930 pounds, which sold to P. Burns and Co. for 29½ cents a pound, bringing the owner \$275. He also was awarded \$10 and a show halter by the Alberta Hereford Breeders' Association.

The Grand Champion and Reserve Champion calves were raised by Walter Muir of the Mount district, west of Olds, the boys having purchased them last fall. Mr. Muir purchased \$5 each to the four boys who showed calves bred by him, and which reached the Special class.

Showmanship was judged by G.S. Black, supervisor of Junior Artificers, Hector McDonald, Crossfield, formerly with the Extension Dept. of Washington University, and Alex Robertson, Hereford breeder of the Didsbury district.

The T. Eaton Mail Order Dept. at Winnipeg donated handsome kids in leather cases, containing all the gadgets necessary to make a calf look handsome. These were won by Roy Fischer, Olds; Gordon Robertson, West Didsbury; Mercho McArthur, Madden; Rod McCrimmon, Crossfield; Harold Schellke, Carstairs; and Bob Elliott, Jutland.

Billie Francis, as winner of the Carstairs Club, won the shield donated by the Carstairs committee for the best calf in that club.

Mr. McNeill, district agriculturist, was supervisor of the calf clubs, and was on hand to help with the many details of the show and sale.

NOT FORGET OF THIS RECORD

Ask almost anyone what country has the highest traffic accident record and they would say the United States. But they would be wrong. That grim record belongs to Canada.

For every million motor miles driven in the United States last year 77 people were killed. The corresponding figure for Canada is just a shade under ten.

And the Canadian rate is rising. At least 2,000 people will die violently in traffic accidents this year, 30,000 will be injured, many of them for life, and property damage will amount to the staggering sum of \$50 millions.

Only a thoroughly aroused public opinion and a firm determination on the part of every adult citizen, can check that shocking toll. A great many different factors are responsible for the traffic accidents, but the most common and important of them all is the carelessness on the part of the speeding driver who thinks that nothing will happen to him, carelessness on the part of the pedestrian who steps onto a road without looking. Unless we can make these people realize always the penalty for a moment's carelessness there will be a lot of mourning ahead of us in the summer months just starting.

GOOD CEMENT

A good rule to remember in mixing cement is—change the proportion of sand and gravel, but do not change proportions of water and cement. Four Imperial gallons of water are recommended for one sack of cement used in most types of farm construction. With this amount of cement and water, 2½ cubic feet of sand and three cubic feet of gravel are suggested.

PLENTY OF GAS IN ALBERTA

According to information received by the Commission which investigated the natural gas supply in Alberta there appears to be very large quantities of natural gas in the province and as new fields are opened up and new wells drilled this supply is increasing daily. While the gas is found in oil fields in large quantities, even greater reserves have been discovered in the drilling of wild cat wells which have not produced any large quantity of oil, but the gas flow has been tremendous.

It is this available but otherwise useless gas which now lies in capped wells that the various companies now wish to export to Canadian and United States markets, and in so doing it is claimed they will pay a sufficient royalty to the Alberta government which at the outset would probably amount to more than a million dollars a year.

So great has been the demands for gas export, and so profitable an outlook for increased revenue, that the Provincial Government has called a special session of the Alberta Legislature to deal with the question. Just what is to be decided remains to be seen, but it is apparent that the government is now convinced that both present and future natural gas reserves are sufficient to export it and still supply the needs of Albertans for several hundred years.

One Company applying for export of gas has estimated that a pipe line to the west coast and down to Seattle will cost in the neighborhood of \$175 million. It might be a good idea if the government would decide to grant an export license to this company, or any other company which would construct a pipe line from Leduc south to Calgary, passing the towns along the main C.P.R. line, providing that said company would spend an additional million dollars to supply the towns, villages and hamlets along the route with natural gas facilities. We believe any company that would come out with such a proposition would be sure to gain favor with the Legislature, regardless of politics. After all, what is an additional million dollars to a concern that is willing to spend \$175 million on a project which is assured of a gas supply for at least the next hundred years, and a market at the source of that supply for part of the product which it should make available to the people who want it, who control it, and who have been opposing its export until such time as they are assured that they will have first access to their natural resources.

"UNCONQUERED," TECHNICOLOR SPECTACLE OF EARLY AMERICA

Cecil B. DeMille, Hollywood's elder statesman, has emerged from a three year absence from the screen with a thriller of such gigantic size that it has been hailed as the master showman's masterpiece. This film giant is Paramount's "UNCONQUERED" and it will be showing at the Didsbury Opera Theatre on Thursday, Friday and Saturday, June 9, 10 and 11, with Gary Cooper and Paulette Goddard heading a cast of thousands.

DeMille, creator of such screen classics as "King of Kings," "The Crusades," "Union Pacific," and "Northwest Mounted Police," has chosen an adventure-packed portion of American history and, with his legendary flair for action on an historic scale, fashioned a film that should make cinema history.

"Unconquered," a Technicolor filmization of Neil H. Swanson's novel, is a stirring saga of American heroism in the days before the American Revolution. It deals with the events and people involved in the terrible "Pontiac Conspiracy" in which several Indian nations banded together in a merciless campaign to drive the advancing colonists back into the sea.

Said to be the mightiest of the DeMille epics, "Unconquered" has, like all its predecessors, a climax of spectacle proportions. This time it is the historical famous siege of Ft. Pitt, and the scene, report has it, fills the screen with unprecedented thrills.

There is romance, too; a tempestuous affair between Cooper, a Virginia militiaman and patriot, and Miss Goddard, as the fiery and beautiful slave-girl, Abby.

Heading the hand-picked supporting cast of "Unconquered" are Howard Da Silva, Boris Karloff, Cecil Kellaway and Ward Bond.

POLISH VETERANS

It is reported by the Department of Labour that at least 250 of the Polish veterans who came to Canada in 1946 and 1947 for jobs on farms were now either operating farms for themselves or had well-laid plans for doing so in the future.

Approximately 80 of these men are in Ontario, with the remainder established in every province with the exception of Newfoundland. Some of them had purchased their own acreage, while others had rented land or were operating farms on a crop share basis.

SINGLE HEDGES BEST

The question is sometimes raised as to whether hedge plants should be set out in a single row, or in a double one with the plants staggered.

This latter method uses more plants and more space. It is harder to trim into good shape and leaves a poor end at a gate or path where any unevenness is noticed. Under normal conditions, horticultural officials of the Dominion Department of Agriculture say that single plantings of hedges are advisable.

CATTLE FOR ITALY CANADIAN PUREBRED

In November 1948, four Holstein-Friesian bulls, valued at \$15,000, were flown to Italy via New York, marking the first shipment of Canadian purebred cattle to that country. In March of this year an additional eleven head of cattle were flown from Malton to Italy, the first such air shipment direct from Canada to Europe.

These small shipments proved to be the forerunners of a large shipment of 125 purebred Holstein-Friesian heifers which are now on their

way to Italy by steamer.

Italian breeders have expressed great satisfaction with Canadian purebred Holstein-Friesian cattle, and it is expected that further orders will be placed in this country, change the proportion of water and

Saskatchewan has nine permanent parks scattered throughout the province.

Since 1876, except during war years and bad depressions, Canada has imported from the United States, \$48,976,553 each year.

CANNED BEEF

On May 9, the British Treasury released a statement on the progress of Mexican-British discussions concerning canned beef. The United Kingdom intends to purchase 80 to 100 tons, delivery to begin in June or July. Prices have not been determined and negotiations are still continuing to determine how Britain will make payment.

Hereford Breeders Plan Alberta Tour

Another Hereford Breeders Tour will take place on July 5, 6 and 7 and will visit many of the Hereford breeders of Central Alberta. The party will leave the Exhibition office, Calgary, at 9 a.m. on July 5 and will arrive at the ranch of Charlie Jones, Balzac, at 9:30. Any breeders who will find it more convenient to start at this first stop may do so. Other districts that will be visited that day are: Iricana, Airdrie and Crossfield. The party is scheduled to arrive at Victor Watson's Collicut Ranch at Crossfield for a Field Day which is to start at 3 o'clock. Besides the breeding of Hereford cattle Mr. Watson is widely known for his registered seed grain.

On July 6, a few herds will be visited in the Carstairs, Didsbury, Bowden and Innisfail districts and the members of the tour are to arrive at W.J. Edgar's Little Red Deer Herd Farm at 3 p.m. The afternoon will be spent in judging competitions and also in a baseball game between the breeders, under the captaincy of Dode Bull, and members of the Innisfail Lions Club, under the management of

Lion Oscar Lundgren. Following the ball game a barn dance will be held in Will Edgar's barn.

On July 7, the party will move on to various herds between Innisfail and Camrose, arriving at Stan Gould's farm at 3 p.m. for a Field Day. Mr. Gould is president of the Alberta Division. He has a lovely place and a good herd of cattle and a visit there will end the tour.

The exact route has not yet been completed. The committee in charge would appreciate very much if the breeders who wish to go, would contact W.J. Edgar, Innisfail; Roy Ford, Iricana; or Arthur Crawford Frost, Nanton, before June 15, as there will be a good deal of organizing to do. It is to be hoped that Hereford breeders from other provinces will join the tour as it promises to be a great get together as well as a good opportunity for men who are interested in the raising of better livestock to see some of the good herds of Herefords of Alberta—Innisfail Province.

You cannot bring about prosperity by discouraging thrift.

PREDATORS OUTLAWS AT LARGE

COYOTES

No. 1 Menace to Livestock and Game

A radio commentator on a Western U.S. broadcast remarked that drought was agriculture's number one enemy, but that the coyote now appears to be taking second place. In recent months, reports from farmers all over Alberta indicate that losses in sheep, young cattle, fowl and deer have reached a grave all-time record. Something must be done to control this marauding outlaw while its breeding grounds and lairs are easily accessible.

The individual farmer, while somewhat handicapped by restriction laws and fence lines can at least be on the alert to destroy all coyotes in his own immediate area. The creatures are hard to trap, snare or poison, even where such measures are allowed. The use of planes, wolf hounds, etc., have been quite effective in open country. In bush-lands they cannot do much. Whether a combination of trained trappers, or adequate bounty payments to induce amateurs to take an interest, are the answers, it still remains that an aggressive campaign on the part of both farmers and Government is desirable.

WEDDINGS

GOOD—HILDEBRANDT

A pretty wedding was solemnized at the home of Mr. and Mrs. Don Dunphy, Calgary, Alberta, on May 28, at 4 p.m., when Miss Olga Hildebrandt became the bride of Mr. Arthur Good, of Garfield, Alberta.

The bride looked lovely in a floor-length gown of white satin with floor-length veil and carried a bouquet of pink carnations. She was attended by her youngest sister, Miss Ella Hildebrandt, who was dressed in blue satin and carried a bouquet of pink carnations.

The groom was supported by his brother, Mr. Lyle Good, of Garfield, Alberta.

The marriage was performed by Rev. John Hildebrandt, brother of the bride, who is minister of the Lutheran Church at Manville, Alberta.

Following the ceremony the bridal party had their pictures taken at Tigersted's Studio.

A reception followed at the home of Mrs. Dunphy, sister of the groom.

The happy couple are spending their honeymoon at the west coast visiting relatives and friends.

BRITISH INDUSTRIES URGED TO INCREASE EXPORTS TO AMERICA

Efforts will be made to expand still further the volume of British exports to Canada and the United States during the current year.

Production, especially in the key industries of coal, steel, textiles and agriculture, will be given every encouragement. Costs, particularly of materials, will be reduced and the quality of goods improved wherever possible.

SEEDING ALMOST COMPLETED

Wheat seeding is nearing completion and coarse grain seedings are from 50% to 90% completed. Germination has been fair but lack of moisture resulted in patchy growth in many areas. Height of wheat varies between 2 and 5 inches and early sown coarse grains are now showing. Condition of crops is fairly satisfactory but good rains are needed.

Reconstruction Of World's Greatest Seaport

Most of the tremendous damage inflicted to the Port of London during the war has now been repaired.

Forty-four miles quays have been cleared, the docks restored to working order, countless warehouses and sheds entirely rebuilt. Seven and one-half million tons of shipping during the last year brought into the Port of London freight almost up to the level of 1939. One hundred ships a day are now using the Port of London.

See Britain By Caravan

Visitors to Britain this summer will be able to make unique tours of the country, going to the most inaccessible places at will, free of all problems of accommodation, packing, unpacking, and so on. It will be done by "luxury caravan," a service devised by one of Britain's leading caravan trailer builders. The service will comprise in brief: a caravan towed by a chauffeur-driven car to meet overseas visitors at their point of arrival, transport them around Britain, and then return them to the port of departure. The clients can select their own itinerary.

UNITED KINGDOM EXHIBITS IN CANADIAN FAIR

More than 130 United Kingdom firms are showing their products at Canada's International Trade Fair which opened in Toronto on Monday, May 30. The biggest proportion of exhibits is in textiles—the United Kingdom representation in this section being almost three times larger than the Canadian.

In the machinery section United Kingdom manufacturers occupy a slightly smaller area than Canada but their number is larger. United Kingdom firms are also participating on a large scale in the marine and aviation equipment, agricultural equipment, household and electrical appliances, household furniture, chinaware and leather goods, and food and beverages section of the Fair.

UNITED STATES ACREAGE CONTROL POSSIBLE

In the United States, the department of agriculture is considering enforcing a 20 to 25 per cent cut in wheat acreage for next year. This would mean a reduction of from 81 million acres to about 65 million.

There is a possibility, however, that the present wheat program will have to be continued for another year in order that farmers may be advised of the new plan in time for them to make the necessary changes in their farming program.

Whether this plan goes into effect or not will depend to a large extent on the output of the current crop which is now estimated a well over 1½ billion bushels.

Canada's great Leader

LOUIS ST. LAURENT, Prime Minister of Canada

At the polls on June 27 the voter must ask himself, ahead of anything else, who should be head of the government.

In Louis St. Laurent, Canada has found a great national leader.

That he had high abilities of the mind was proved by his career in law. That he had wisdom in cabinet, unique gifts in parliamentary debate and a quick grasp of large affairs became clear as soon as he entered the Government. In international affairs, as one of the original advocates of the Atlantic Pact, he made himself a world figure who spoke out as no Canadian before him, in the councils of the nations.

He also revealed an understanding of ordinary people, because he is

one of them.

This warm and essentially simple human being is the real St. Laurent, the product of the small town, of humble beginnings, hard work, a big family and the friendliness of country neighbors.

In blood, language and instinct he combines the qualities of two great races.

To the voter it is equally important that St. Laurent is the leader of a truly national party, with proved strength from coast to coast, the only party which can hope to form a stable government after the election. His character, his ability and his achievements have made him the leader of all the Canadian people.

MENS THRIVE ON SEA SHELL GRIT

The cockle shells on the beaches of the island of Barra, in the Outer Hebrides, a string of islands off the north west of Scotland, are to be commercially exploited. The shells are ideal for poultry grit. Inquiries have already come from Cyprus, Malta, Egypt, and other Mediterranean lands, where agencies are being arranged. A lease has been granted to a company which will erect processing plants on the island and provide continuous employment in the extraction of shell grit.
